DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of in the reply filed on 5/19/2006 is acknowledged. The traversal is on the ground(s) that there would be no undue burden for search. This is not found persuasive because the examiner must consider thousands of documents in a very limited amount of time and clearly that represents undue burden.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-47 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-14 are rejected because while the claim is drawn to a method, there are no actual method steps. Please note that the language of a claim must make it clear what subject matter the claim encompasses to adequately delineate its "metes and bounds". See, e.g., the following decisions: In re Hammack, 427 F 2d. 1378, 1382, 166 USPQ 204, 208 (CCPA 1970); In re Venezia 530 F 2d. 956, 958, 189 USPQ 149, 151 (CCPA 1976); In re Goffe, 526 F 2d. 1393, 1397, 188 USPQ 131, 135 (CCPA 1975); In re Watson, 517 F 2d. 465, 477, 186 USPQ 11, 20 (CCPA 1975);

Art Unit: 1651

In re Knowlton 481 F 2d. 1357, 1366, 178 USPQ 486, 492 (CCPA 1973). The courts have also indicated that before claimed subject matter can properly be compared to the prior art, it is essential to know what the claims do in fact cover. See, e.g., the following decisions: In re Steele, 305 F 2d. 859, 134 USPQ 292 (CCPA 1962); In re Moore 439 F 2d. 1232, 169 USPQ 236 (CCPA 1969); In re Merat, 519 F 2d. 1390, 186 USPQ 471 (CCPA 1975).

Claims 15-40 are rendered indefinite by the phrase "FGF family member" as the scope of this claim is unclear. The phrase does not appear to be explicitly defined in the specification and as "family" has no concrete art recognized meaning, the scope of the claims is unclear.

In claims 15-47, the phrase/step "selecting cells by culturing in the ..." renders the claims indefinite because it is unclear how said selection is to occur. These claims lack the proper description of the claimed process because while the claims set forth the physical steps of the method, the claims fail to set forth the metes and bounds of the procedure in that the claims do not recite the effect of each step so that one would know when to go from step a to step b (and so on) of the claimed method.
